## Information For Completing This Application

This information is to assist you in completing your application for a Brewery Storage Depot License. Please review the information provided to avoid any delays in the processing of your application.

**16-4-102, MCA. Right of brewers to maintain and operate storage depots – annual licenses.** It shall be lawful for any brewer duly licensed to manufacture beer, upon the payment to the department of an annual license fee in addition to all other fees and taxes required to be paid by such brewer for each storage depot, to own, lease, maintain, and operate, in any city or town in the state of Montana, a building for use as a storage depot, equipped with refrigeration and cooling apparatus, for receiving, handling, and storing beer therein and distributing and selling beer therefrom, as brewers are permitted to sell and distribute beer under the provisions of this code.

### Application Process

*To apply for this type of license, you must be duly licensed in Montana and hold the appropriate TTB bond as a brewery.*

When we receive a complete application, we will contact you to let you know whether your application meets our initial requirements or if we require additional documents. It typically takes 60 to 90 days to process this type of application. The approval process includes notifying local officials that we have received your application. This helps us identify any issues that may prevent the proposed location from qualifying for a license. Additionally, we request that the Department of Justice review the qualifications and suitability of the applicant(s) and proposed location.

Once the Department of Justice has conducted its investigation, if both the location and applicant(s) meet state law and department regulations, we will send a letter to approve the transfer or issuance of the license.

**Please Note:** Applications for a new license or transfer of location need approval from the building, health and fire code officials before we can approve this application.
